2nd district, Bucharest, Romania

Dear Mr. Clementi:

After reading about multiple internship programs on HIPO Career Recruitment Online, I have become quite interested in the junior C++ position. As a student at the University of Bucharest, I will complete my Bachelor's Degree in Computer Science in May 2019. The prospect of joining your staff in this role would be a welcome and exciting challenge.

Over the past summer, I have had the opportunity to take part at Bitdefender Tech Challenge within the learning program. This involved working individually at home on given projects and learning new concepts I haven't learnt in university. Through this experience, I have demonstrated the ability to work independently as well as become a valued team member and manage to accumulate a large amount of information. In addition to my courses, my communication and leadership skills have been cultivated through my extracurricular involvement and conducting class group projects and presentations, also social event hosting through modelling agencies and working for 1 year as a selling assistant at H&M. With this combination of skills and experience, I am confident that I could be an asset to your staff in the junior position.

My resume is enclosed for your review. If you have questions or wish to arrange an interview, I may be reached at 0724726480. Thank you for your time and consideration.

Sincerely,

Catalina Leopea
